TO WHOMSOEVER IT MAY CONCERN

We have installed 3 Nos. Phthalic Anhydride units, one in 1991-92, another in 1996-97 and the 3rd stream was commissioned in the month of July, 2013.

M/s. RST Control System, Dombivli (E), had been awarded Instrumentation and electrical contracts for carrying following jobs during installation and commissioning of 3rd Phthalic Anhydride plant.

- 1) Effluent treatment plant Electrical and instrumentation installation and commissioning
- 2) Electrical and instrumentation installation of our Phthalic Anhydride automatic bagging system.

They have carried out the above instrumentation and electrical installation jobs successfully and we have found their workmanship to our utmost satisfaction and as per the petrochemical engineering standards.

We wish them all success for their future endeavours.
